

We Found Love - Lindsey Stirling

I never could have done this video on my own. I had so many wonderful people help me too, I want to thank: My friends at VenTribe.com sent me out to Kenya to film this. They are a fresh new way to shop online with friends, and they made the whole trip possible. They launch soon and will feature a gift collection of African styles featuring a few of the things you would have seen in the video. Check them out at <http://www.ventribe.com> [1].
